

## Texas

### Processing time

Table TX1 describes application processing times, portrays whether temporary or provisional licenses were granted, and lists if military spouse applications were expedited. Processing time information was available for five of the examined boards in Texas. Accounting, Dental Hygiene, Massage Therapy, and Pharmacy Technician boards met the DoD's goal of granting a license within 30 days. Cosmetology, Massage Therapy, and Pharmacy Technician boards expedited military spouse applications.

**Table TX1**

### Documentation requirements

Tables TX2 and TX3 display the documents that are needed by each board and should be viewed together to determine a board's paperwork requirements. All of the Texas boards that were examined required proof that the applicant holds an occupational license in another state. The amount of documentation required by boards varies; for example, Dental Hygiene applicants must submit 12 documents, and Pharmacy Technicians are only required to submit three.

**Table TX2**

**Table TX3**

*Number of Education/Experience Documents or Other Documents*

Note: "Other documents" include documents such as a driver's license, marriage license, or military ID card. Dental Hygiene "other documents" also include medical-related documents, such as CPR certification, radiation safety training, or a malpractice insurance letter; thus, these numbers may be higher than in other occupations.

**Application Process**

Table TX4 presents key elements of the application process. All of the examined boards in Texas defined the application process and provided clear instructions.
